Vaccines411.ca is officially HONcode certified.

Montreal, May 11, 2015 — Vaccines411.ca is proud to announce its official HONcode certification. Having met with the ethical standards that the Health On Net Foundation has established for websites offering quality health information for patients and professionals and the general public, Vaccines411.ca has been awarded its HONcode certification.

“We are extremely pleased to share this significant milestone in Vaccines411 evolution with everyone,” says Francisca Roel, founder and architect of Vaccines411.ca

The HONcode certification is an ethical standard aimed at offering quality health information. It demonstrates the intent of a website to publish transparent information. With the availability of Web server software, anyone can set up a Website and publish any kind of data which is accessible to all. It is crucial for websites that offer information on health to convey accurate, trustworthy and transparent information for the interest of public safety. Vaccines411.ca is therefore proud to announce that our website has met the standards in reliable and accurate health information, set up by the Health On Net Foundation.

About Vaccines411.ca

Developed and managed by FR@SNM, Vaccines411.ca is an online vaccination clinic locator that also includes reliable immunization resources so Canadians can easily find the vaccination resources they need. The website was officially launched in May 2011. This free online service was created to facilitate the process of vaccination for the many Canadians who do not know where to turn for this kind of information. The information provided on Vaccines411.ca is designed to complement, not replace, relationships between patients and healthcare professionals.

About FR@SNM

FR@SNM is a Canadian web agency (www.frsnm.com) that specializes in developing web-based applications and online communications for the healthcare industry. As web consultants to the healthcare industry since 1998, FR@SNM's mission is to help its clients achieve their objectives with smarter web-based technologies that maximise return on investment.
